

SPONSORSHIP 2021

At Sanofi we appreciate and commend the important work of patient organisations to bring benefits to the daily lives of patients. As a patient-focussed organisation we aim to help people take control and improve their healthcare outcomes to positively impact their health and lives. We wish to make a measurable positive impact on the lives and families of people with serious diseases and chronic conditions and one of the ways we translate this commitment into reality is by partnering with patient organisations to pursue shared goals, which benefit patients in a sustainable fashion.

Our work with patient organisations is governed by the framework provided by the ABPI's Code of Practice and our desire to be transparent, ethical and respectful of our relationship with our patient organisation partners. During 2021, as a member of the Association of the British Pharmaceutical Industry (ABPI), Sanofi has complied fully with the 2021 Code of Practice concerning the support it provided to the following organisations:
